Coons, Dogs Meet - In Unexpected Way

The only time coon dogs and racoons get together ordinarily is when the dog trees a coon in a moonlight hunt. But that's not the way the story went this week for a female coon dog, her puppies and three baby racoons.

The dog, belonging to George Hall Tyson, Maysfield, had three puppies. Tyson had three baby coons he took from a grown racoon.

A mother's instinct stronger than the call to hunt brought coon dog, puppies and the racoons together.

You can see the mother coon dog nursing all six contentedly—three puppies and three baby racoons.

State Presents Road Agreement To City Council

The City Council Tuesday night considered a municipal maintenance agreement presented by Carol D. Zeigler, resident engineer, in behalf of the state highway department.

They asked that City Attorney William C. Black study the proposed agreement which will be made with the state.

Zeigler told The Herald the agreement would outline maintenance responsibilities for both city and state concerning state and national highways going through Cameron.

He said it would consolidate several individual agreements already in effect.

The Council also voted to install a sewerline to the Wilson Grain Co. now under construction on East First St.

They also reappointed Dr. David Shapiro city health officer. In final action they appointed Morris Epley to the city planning commission and reappointed Richard Williams and Hilliard Thomas.

Bid date for the new filtration plant was reset for August 6 due to the death of D. W. Robinson, Joe Rady & Co. engineer, who was killed in an auto accident last week near Valley Mills.

He had reported plans and specifications last week were ready for bids and construction.

He completed his undergraduate work at Prairie View A&M College and is working this summer on graduate work at the University of Texas. He is married and has three daughters and a son.

He was acting principal at Brookshire for two years while teaching agriculture.

Other new teachers are:

Thetis Edmond, Belton, in high school English; Margaret Banks, Rockdale, in homemaking; Farris Simpson, Brownwood, in high school social science; Raymond Fontenot, Raywood, in high school mathematics; Donald Hunter, Cameron, eighth grade; Cecil Anderson, Cameron, seventh grade; and Annie Langford, Belton, third grade.

Loughmiller said he is still seeking a new band director for O. J. Thomas.

School board members voted to accept a bid from Barron-Britton Roofing Contractors, Bryan, for a new roof at YHS. The winning bid was \$3,494.

Also approved was the go ahead for new outside doors at Yoe High School and Ada Henderson and new asphalt tile flooring for five first-floor classrooms at YHS.

Contractor Stanley Hughes advised the board to begin work on the school this summer.

New Diamond Planned

Another measure was passed that will create a new baseball diamond on the old Milam Liberal Institute property. Fencing materials donated to the school by the local National Guard will be sold for funds to build the diamond.

Members said city grading equipment will be used to clear the area and level it. It will require heavy equipment to remove the old foundation of the structure.

Loughmiller told The Herald that four vacancies still exist in the teaching staff of Yoe High School. They are industrial arts, mathematics, English and commercial work.

The board also approved a \$25 per month rent for Turner Grocery and a two-year extension on the lease of school property at North Fannin and East 12th Sts.

The lease had been \$25 per year. The new lease expires in July 1, 1960.

Chamber Announces Holiday Schedule

Ben Magness, Chamber president, stepped down from his post Friday at a meeting of the Chamber board of directors and the group approved a schedule of holidays for member organizations.

Magness has been promoted to assistant sales manager of the Bryan district for Humble Oil Co. and will move there July 1.

The Chamber announced a holiday schedule voted on by the membership earlier this spring. Member concerns will be closed July 4, Thanksgiving Day, Christmas Day and New Year's Day.

Chamber second-vice-president Hilliard Thomas took the gavel after Magness officially advised the directors that he was moving to Bryan July 1.

Thomas asked that a resolution commending Magness for his work for the Chamber be drawn.

up and sent to the Bryan Chamber of Commerce.

Henry Siebman, first vice-president, was not present at the Friday meeting, but will direct Chamber activities until a new president is elected, officials said.

Mrs. Jan Speer, Chamber secretary, told the group of her three-day stay at the 51st convention of the Texas Chamber of

Commerce Manager's Association, June 24.

Bill Burns, chairman of the Chamber Industrial committee, reported contacts made with owners of a garment factory in Dallas. The manufacturers contemplate a move to another locale, he said, and Cameron is competing with two other cities for locating the 50-employee plant.

E. A. Perrin motioned to send letters of appreciation to both Cameron elevator companies for building in Cameron.

The Milam Grain Co. is adding additional equipment while the Wilson family is constructing a new grain elevator and plant on East First St.

They were selected from a group of 12 outstanding seniors from six county high schools.

Von Gonten will attend Texas A&M or Texas University to study mechanical engineering. He was active in 4-H work, Luther League of the Hope Lutheran Church and school sports.

Milam County's National Guard unit, Battery C, 649th Anti-Aircraft Artillery Battalion, returned to Cameron early Sunday morning, ending two weeks of active duty at North Fort Hood and its tenth summer camp.

And the record books will show that it probably was the battery's most successful camp, despite occasional adverse weather conditions.

The Guardsmen received some high ratings by the Army observers, brought home a payroll of

Panel Deliberates 2 1/2 Hours; Trial Ends After 2 Days

A Milam District jury Tuesday night found Charles Braden, 22, Houston, guilty of murder with malice in the shooting death of Johnnie Sanders, Jr., 26, Fort Worth. Braden had entered a plea of not guilty.

Judge W. T. McDonald, sitting for Milam District Judge O. D. Graham read the jury decision that called for a sentence of 20 years in the state penitentiary at Huntsville.

Sheriff Carl Black was to take Braden to Huntsville in a few days, the county law officer told The Herald. Braden was placed in the county jail after the verdict was returned.

Asked Death Penalty

District Attorney Robert Nelson had asked for the death penalty in the Braden case.

The jury's decision came after two and one-half hours of deliberation. They heard closing arguments by Nelson and Defense Counsel Jack Prescott late Tuesday afternoon.

Braden was convicted of the shooting death of Sanders that occurred about 11:40 p.m. last December 22 outside the Starlite Club. Sanders died of an abdominal wound after the shooting.

Sanders' brother, Claude Sanders, 20, Cameron, who appeared as a state's witness, was wounded that night.

No appeal plans were announced by the defendant's counsel. Braden has 10 days in which to appeal to a higher court.

Braden's wife sat at his side throughout the trial. Their three children and Braden's mother attended the trial.

Nelson told the jury Tuesday afternoon in his summation that witnesses testified that Braden had threatened Sanders as he left the Starlite Club for his car.

Both Sanders brothers had left the building together before the shooting.

Mrs. Braden testified that the deceased Sanders had struck her at the table where several couples were sitting. An argument developed at the table.

Braden testified that he had got a gun out of his car because he was afraid of Sanders.

FB Planning Queen Contest Here July 25

The Milam County Farm Bureau has announced plans for an annual queen contest for entrants from 16 to 22 years of age.

Miss Lenora Bickett, Farm Bureau secretary, told The Herald the contest will be held 8 p.m. Thursday, July 25, on the lawn of Simon-George Hall, Cameron.

There is no limit on the number of entries, Miss Bickett said, but their parents must be members of the Farm Bureau.

Registration deadline for the annual event is July 5, she said. Entries may be filed at the FB office, Cameron.

She pointed out that the girls must be 16 to 22 years old by September 1, be single and their parents must be Farm Bureau members. Last year about a dozen queen contestants entered.

They will be judged for appearance, poise and personality. Contestants will wear formals, she continued.

Out-of-county judges will select a winner who will receive a \$15 first prize and a runner-up who will receive \$10. Other contestants will get presents.

The Milam County queen will go to Waco for the regional. Regional winners will go to the state queen contest sponsored by the Texas Farm Bureau next November in Dallas.

Each contestant will be required to speak for one minute on a subject pertaining to Farm Bureau, Miss Bickett concluded.

Milam School Board Annexes Yarrellton District To City

The county school board last week annexed the Yarrellton school district to the Cameron district, affecting about 20 students in a Negro school.

A school tax election has been called for Saturday, June 29, for both Cameron and Yarrellton district voters to authorize adoption of the Cameron district's tax rate for the Yarrellton area.

Yarrellton district school tax was 61 cents. It will be raised to \$1.50 if the measure is carried. The \$1.50 rate is the present tax in the Cameron district.

The pupils this fall will attend O. J. Thomas School, Cameron, according to Supt. Wiley Loughmiller.

White students in the Yarrellton district have been attending Cameron schools.

Construction Means Progress

Progress was a notable feature in three of The Herald's front-page stories last Thursday.

In this instance we are referring to the call for bids that will open construction soon on a city filtration plant, a new baseball diamond and extensive remodeling of the Cameron Postoffice.

A lot of work preceded those headline stories just as much work is going on now to add to the list of improvements in Milam's county seat.

The school board Thursday night authorized a new roof, doors and flooring for Yoe High School and talked of resurfacing the trio of tennis courts on East 12th St.

The board of directors of the Cameron Chamber Friday heard a report of efforts to bring a 50-employee garment factory to this city.

These plans herald a better school plant, state-approved water and general physical improvement throughout the city.

Whenever a city is improving its various public facilities, it is a certainty that well-calculated growth cannot be far behind. We do not say the growth will just happen. But the basic commodities for stable growth are at hand.

Efforts to realize these improvements would be partially wasted if they were not followed up to make the investment conducive to growth.

The Cameron Chamber is following up. They are seeking small industry to join Wall Lake Door Co. They fully realize that a city's economy must be as diversified as that of agriculture's crop program.

We note then, with pride, a trend in Cameron to bring improvements that Cameron needs. It means a better city for present residents and potential attraction for many others.

We hope to write many such headlines in the months to come.

Mid-County Cameron With FML

"Strangest name I ever heard of," one countian is telling another. "I wonder how he pronounces it?"

"That's FML," I allow. There was a break in the warm Milam County rains and I happened to overhear the question while on the way to coffee.

"Who are you?" quizzes a second countian, studying my countenance. His look said: Hmmp! "I'm FML."

"F-M-L, hun! Don't you have a name or are you just a cotton-pickin' smart alec? Other people put their names on things they think are worth readin'."

"You could pronounce it 'Fo-mal,'" I dare, backing away from an expected right to the jaw. "But the initials stand for Frank M. Luecke and I'm working at The Herald."

First Countian: (Benignly) "Saw your column last week. Pretty bad."

FML: (Hesitantly) "Sorry, I'll try to do better this week."

Second Countian: "You mean you have nerve enough to write another one?"

FML: "No nerve. It fills up space, that's all."

A long pause followed. I probably should not have offered my two cents worth that day.

"Say," the first Countian offers, "now that we know your name, how are you likin' Camer-

on and Milam County?" "You're not mad?" I reply. Somehow it appeared the day was less... or the week for that matter.

"Newww," he obliges. "Get a kick out of getting in the last word," He had.

"Yeh," says the second Countian, "what do you think of Cameron?" They were out to pin me.

"Well," I begin, "if there weren't a lot of fine things about Cameron and Milam, I couldn't write a very interesting column, could I?"

"People nice to you?" "Couldn't be much nicer to someone who's only been here for three months," I say honestly.

"Cameron's always been noted for it's friendliness," opines the second Countian.

"Little doubt about that," I say. "And it's one of the best virtues any city can boast."

"Well," says the first Countian, "I've got to get on down the street."

"I've got to run too," says the second man.

They walked on down the street, talking bemusedly and motioning in my direction.

I was about to go on for that cup of coffee when I thought I heard another voice offer: "I wonder how he pronounces it?"

"Who cares?" I think. "It gets complicated."

Vacationtime Comes To State; 1,000's On Go

By Vern Sanford
Texas Press Association
AUSTIN — It's vacation time in Texas. During the next three months millions of people will stream to every corner of the state in search of relaxation.

But a lot of home folks will stay home. They make a living catering to the tourists. Vacationing is big business in Texas. And it promises to get bigger.

Last year nearly 8½ million spent \$350,000,000 for food, lodging, 12 per cent on business. They out-of-staters visited Texas — on gasoline and entertainment.

Next year voters will decide whether to try to hustle in even more visitors and money through nationwide advertising. A proposed constitutional amendment to remove the ban on spending state funds for advertising was passed by the last Legislature. It will come to a vote at the November, 1958, general election.

Meanwhile, several state agencies and a host of municipal and private organizations give out information on how to have fun in Texas.

Sage Wants New-Type Loan On Grounds He's Weak Too

By J. A.

Dear editor:

After one of the greatest surprises of my life yesterday—I found a copy of a newspaper lying on my front porch, right beside my chair where I could pick it up without moving—I settled down to reading and hadn't gone far when I ran across an article that made me sit up straight and think.

According to it, the United States has figured out a new way to attack the agricultural surplus problem.

Under this plan, for example, Washington is going to lend Poland 95 million dollars with the provision that she has to use the

money to buy farm surpluses from us.

Also, because Poland needs help in strengthening herself against Russia, part of the loan will be interest free.

Now this opens up a brand new method of dealing with surpluses, and I wish you'd use your influence if you haven't misplaced it to swing a deal like that for me.

That is, I don't know exactly off hand what I'd do with a lot of farm surplus, but if the government will lend me some money interest free, I'll be glad to see what I can figure out. We've all got to pull together on this thing. And while I don't need strength-

ening against Russia, I do need strengthening against a lot of creditors, and I don't see why Washington should quibble over this small point. If a man or a country is weak, they both need strengthening, it doesn't matter what against.

Idea ought to have even wider use. For example, the agricultural surplus isn't the only surplus we've got in this country. I know some merchants in town who have a surplus of drygoods on their shelves. I think one or two car dealers have some cars they'd like to dispose of, and I've never seen a supermarket that didn't seem to have a surplus of groceries.

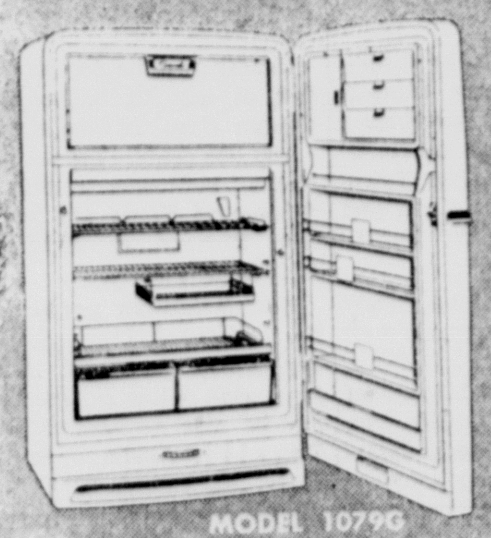

If Washington will furnish me the money interest free, I'll do my part — I'll prove I'm weak and need strengthening, and both together we'll eat into this surplus that's bothering this country.

Please let Washington know I'm ready to sign the loan papers.

Yours faithfully,

J. A.

A Tribute

To Our Flag!

"Three cheers for the Red, White and Blue". When we sing those stirring words at home, at school, as a parade passes, or whatever the occasion, let's pay more than merely lip service to the Grand Old Flag! Poems have been written for Old Glory. Statesmen have eulogized its immortality. Soldiers on battlefields throughout the world have died for it. It flies majestically night and day over the White House. It is the blessed Flag of Freedom and stands for all the things we hold dearest. Honor the Flag that is the signature of our country and fly it proudly in your heart.

Since 1954 the number of farm residents in Texas has increased by 30,000. Since 1933 the trend had been downward. The farm population now makes up only 13.2 percent of the state's total population but this figure is dropping because of the rapid increase in the urban population.

Three Means Save Millions

Texas cotton farmers last year saved more than \$15,000,000 in their fight against weeds and grass by using three practices: rotary hoes, post-emergence oiling with naphtha oils and spot oiling Johnsongrass.

Many people could retire comfortably on what their experience has cost them.

Pastures Developing Nicely, SCS Says

Native pastures are in good shape this year in the Central Texas Soil Conservation District reports Hal Hartrick, chairman of the board of supervisors.

Several cooperators of the District have reduced their cow herds very drastically the past two years due to the prolonged dry weather. They have not restocked and intend to let their pasture grasses get re-established.

The rains the past six months will give the desirable grasses a chance to put down a deep root system. By resting and lightly stocking the permanent pastures they should be in much better condition by fall.

Native pastures look good at present on the following district cooperator's farms: W. N. Gordon, Charles Dolezal, W. D. Davis, Frank Coffey, Alvin Fuchs, Ed Sinkel, R. E. Perkins, H. A. Beck, Emil Hejl, Ralph Phillips, and Jim Doskocil.

County Agent Writes:

Experts Recommend Spray For Cotton During Week

By J. D. Moore, County Agent

Because of rains, entomologist Charlie Parentia, in charge of the Waco cotton insect laboratory, is recommending that farmers apply one application of insecticide on cotton now up to a stand. "We did set up June 10 as stop date for poisoning under the early season program but because of delay due to rains, farmers should apply one dose of poison at boll weevil strength this week."

Locally, we recommend that farmers continue to inspect their cotton and be on the alert for flea hoppers. These insects will invade cotton fields in large numbers when horsemint, a host plant found in pastures and on fence rows, matures with hot weather. Ninety percent of our cotton is up to a good stand and is making satisfactory growth. Farmers in Milam county have until June 20 to plant cotton under an extension granted because of rains.

Stock Fish Sought

Land owners whose stock tanks and farm ponds have been dry since they were built now are wanting fish to stock them, according to the Director of Inland Fisheries of the Texas Game and Fish Commission.

Tuesday the department received 204 applications in one mail. During the past two weeks thousands of others have poured into the office.

Several of the hatcheries have been badly crippled by flood waters, curtailing the production materially. Applications will be processed and efforts will be made to distribute the fish as equitably as possible, according to the director.

Waco Swine Sale

The Central Texas Swine Association will hold a sale of breeding swine and feeder pigs at the Heart O' Texas Fair Grounds, 1 p.m. Friday, according to Billy Richardson, Reagan, President.

A total of 120 feeder pigs will be sold. A total of 60 breeding swine will be sold, including Berkshire, Hampshire, Spotted Poles, Duroc and Yorkshire. Henry Richter,

local Duroc swine breeder, is a director of this organization and will enter some of his swine in the sale. Other local breeders who plan to enter swine are William Cargill and sons of Davilla and the Johnnie Richter family of Cameron.

Jehovah's Witnesses To Attend Meeting In Houston July 3-7

The Cameron congregation of Jehovah's witnesses is making preliminary plans to attend a five-day convention at the Sam Houston Coliseum in Houston July 3-7.

Fred Starnes, presiding minister of the group said, "The convention is sponsored by the Watchtower Bible Society for Jehovah's witnesses and is one of 15 to be held this summer." Approximately 15,000 are expected to attend the Houston gathering.

There will be morning, afternoon and evening sessions devoted to Bible talks, discussions, and practical demonstrations for this purpose.

Mr. Starnes said at least three members of the board of directors of the Watchtower Society will speak including N. H. Knorr, president of the world-wide organization.

Mrs. Rose Matyastik and family, Mr. and Mrs. Starnes and Mrs. Minnie Ford will attend the full week of services.

Business is like oil, it won't mix with anything but business.

Rains Halt Work In Milam Fields; Oat Crop Halved

An inch or more of rain June 12 stopped Milam County field work for several days after Milam farmers had worked in most parts of the county earlier in the week.

J. D. Moore, county agent, reported that the spring rains produced a generally disappointing oat crop.

An unusual seige of rust cut the yield in half, he said in his weekly agricultural report, with fields too wet to graze and the harvest delayed by rains.

But the corn crop is faring better than any other crop, he said. Rain this week assured farmers of a fair crop with excellent prospects in some parts of the county.

He said that corn had reached full silk and tassel stage.

Most of the upland cotton is in fair shape, he said, although wet fields have prevented systematic insect control results. He pointed out that cotton will need poison during the remainder of the month.

Livestock conditions continue favorable, he pointed out. Grazing is plentiful and continued rains should stabilize markets.

He saw no "spurt" in localized crops, particularly tomatoes though tomato harvest season is at hand.

People who fly into a rage always make a bad landing.

These Forty Years!

Forty years ago, in June of 1917, the Humble Company received its charter from the State of Texas.

The Company was formed through a merger of the properties of a number of independent oil operators. Its founding brought together a remarkable group of men who occupy an important place in the annals of the oil industry:

R. S. Sterling and his brother, F. P. Sterling, the principal organizers of Humble Oil Company from which the present company acquired its name; W. S. Farish and R. L. Blaffer composing Blaffer and Farish; H. C. Wiess with assets from Paraffine and Reliance Oil Companies; Walter W. Fondren and C. B. Goddard, producers; and L. A. Carlton and E. E. Townes as lawyers.

All of these men contributed greatly in adopting the principles, in shaping the policies, and in laying out procedures that have guided the Company's

progress through these forty years. Their influence will survive as long as the Company continues.

They possessed courage and business judgment. They established high standards of performance. They built a strong organization of competent men and women.

The Company, as it stands today, is a tribute to the leadership, the vision, and the work of its founders.

But it is doubtful that these men, with all their foresight, visualized the changes that have occurred in the oil industry since 1917, or the size and complexity of Humble's present operations, or the extent of the Company's contributions through the years to the progress of our society.

To all who have made those contributions possible—employees, customers, shareholders and the people of the states in which the Company operates—Humble extends its thanks.

Visitors Now Can Fish Sans Premium

AUSTIN — Visitors from other states will now be able to fish in Texas lakes and streams without paying a premium for an out-of-state fishing license effective September 1, according to the executive secretary of the Texas Game and Fish Commission.

This is a feature of the new fishing license bill passed by the last session of the legislature. The fishing license fee was increased from \$1.65 to \$2.15, which will increase the revenue of the department by an estimated \$625,000.

"The elimination of the non-resident feature of the license should be helpful in promoting tourism in Texas," according to the Executive Secretary. "Previously when a visitor came to Texas he had to buy a short-period license. Now he can get a license for \$2.15 that is good for a year."

County Draft Board To Reopen All Student Files July 15 Here

The Local Draft Board will reopen all student files after July 15, according to board officials.

Most student deferments expired the first of June, but the board has authority to delay reclassification action until July 15 in order to give the schools time to compile their averages and submit a report of each student's scholastic standing.

A board meeting will be scheduled about July 21, at which time the student files will be given consideration. Students are urged to comply with instructions contained in a letter mailed recently to all students currently deferred to attend school. Careful compliance with these instructions will give the registrant assurance of consideration for continued student deferment.

A student will qualify for II-S classification consideration when his activity in study is found to be necessary to the maintenance of the national health, safety, or interest.

High school students who have not yet entered college cannot qualify to take the college qualification test, but may apply for it in the late fall after entering college for the first year, or any year thereafter.

The scholastic requirements are different for each college year and must be met, except that those students who took the CQT and made the required score may qualify on that score alone. Students who have completed their first year in college must be in the upper half of the male students of their class. Students completing the second year must be in the upper two-thirds, those completing the third year in the upper three-fourths.

All undergraduate students who do not meet the scholastic re-

quirements may still qualify for college student deferment if they made 70 or more on the CQT. It must be remembered that the II-S classification is not mandatory on the part of the board.

However, if the board does not elect to grant the deferment, the file is reopened if scholastic requirements and/or test score requirements are met, in order to allow appeal.

Turkey Prices To Drop

High storage stocks and an expected 1957 record production add up to lower prices for turkey growers. Poultry production during January and February were far ahead of the same months for 1956 and more eggs were in incubators on March 1 last than for a year ago. Efficient production offers some relief to the problem.

The optimist sees things as they should be — not as they are.
